Paste Clay

Natural Stone Paste Clay

La Doll

Paste ラドルペースト

[Plaster-like finishes]

Simply coat the surface of the sponge to give it a plaster-like finish.

Easy to make
self-made
display stands.

Apply on melamine sponge.

Apply to styrene board.

Apply to styrene board.

Apply on melamine sponge.

LaDoll Paste Handmade Book

PADICO

Cloth Clay is now sold under the name of La Doll Paste.

* The quality of the clay is no different from the cloth day.

La Doll Paste Clay, plaster-like textured

La Doll Paste

NET. 300g (0.66lbs)

Applied to styrene board, sponge, wood, cardboard, cloth, etc. to give the material a plaster-like texture.

800 JPY without tax

#301281

JAN:4902498712815

Dry Time | 2 - 6 hours

Drying time varies slightly depending on the thickness, coating material, and environment.

Clay is sold in paste form and is easy to use.

Point 1

Use for repair after drying.

After drying the stone clay, fill the cracks with paint using fingers or a spatula.

Point 2

Use for bonding clay to clay.

Clay can be glued together without any boundaries and can smooth surfaces.

When applied to a melamine sponge, the sponge appears to be a stone.

Point 3

Apply to a melamine sponge to make background plates for photography.

Check out the video!

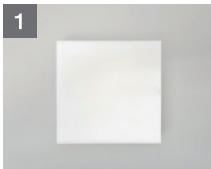

Plaster-like display stones made with sponge

Make in any size, shape,
and color you like.

materials/tools

- La Doll Paste
- melamine sponge
- sealer coating [Matte]
- clear craft rod spoon & spatula (palette knife can be used.)
- shells, lame, etc. prepared to your choice
- brush

1 Prepare a melamine sponge.

2 Split in half by hand.

3 Tear the other flat side
with your fingers as well.

4 Paint with a spatula.

5 Paint a thin coat over the
entire top surface.

6 Paint the top half of the sides.

7 Let it dry half a day.

8 Paint unpainted areas.

9 Paint unpainted half of the
sides.

10 Dry another half day.

11 Apply two coats of paint
overall.

12 Shells, glitter, etc. should be
added at this time.

13 Press down lightly on the
shell with a spatula to fix it
in place and dry.

14 After dry, apply sealer
(matte) all over with a brush
and allow to dry.

15 Lightweight display stones
are created.

Plaster-like display stones made with styrene board.

Check out the video!

Make original form with styrene board

1

Cut styrene board and glue if it is to be 3D.

2

Assemble one part at a time while drying to keep it stable.

3

Set the stair display.

Paint La Doll Paste

4

Coat the entire surface with La Doll Paste with a spatula (or palette knife).

5

Let it dry half a day.

6

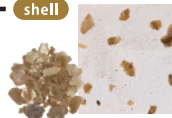

Apply two coats of paint overall and dry it.

Add something to La Doll Paste and arrange to your taste!

+ acrylic paints

+ shell

+ glitter

Arrangement examples

Art works made for accessory trays and dividers for small items.

Create earrings!

Decorate trading cards and photo flames.

Just tear off a melamine sponge and apply the paste.
